RECORDING ROCK-ART

FIELDWORK IN VALCAMONICA

17 JULY - 5 AUGUST 2017

In the wonderful framework of the Landmarks Valley, recognized as UNESCO heritage since 1979, the Centro Camuno of Studi Preistorici organize the annual recording rock-art fieldwork aims at the documentation of the rock art in the middle Valcamonica. Following the previous recording rock.art fieldworks, also this year the works will continue in the area of Foppe di Nadro - Riserva naturale incisioni rupestri di Ceto, Cimbergo e Paspardo (Valcamonica - Italy) on the concession of the Soprintendenza Archeologia, Belle arti e Paesaggio.

The fieldwork will be structured on 3 weeks, it is required the participation to at least 2 weeks. In the first week, mandatory for who has not experience in the rock-art recording, the participant will learn the necessary competences to document rock-art:
• Identification of the rocks within the archaeological authorization and preparation of the rocky surfaces.
• Placing of the tracing sheets in nylon and recording.
• Use of the total station and georeferencing of the rocks.
• Archaeological photography of the engraved rocks.
• 3D recordings of rocks and engravings (SfM).
• Digitization of the tracings, processing and recomposition with computer in laboratory.
• Catalogue, analysis and comparisons with archaeological sources.
• Post-processing of the data gathered.
• Lezioni di approfondimento.

The second and third week will be dedicated to the work on the field, in laboratory.

The application form, logistic informations and more details are available on the web site www.ccsp.it to contact the secretariat: recording.rockart@ccsp.it
