

IMMERSE YOURSELF

Through immersion in this five-week program, you will learn the fundamental techniques of archaeology. Evening programs, field trips, service learning projects, and public events will further expand on essential skills, so you'll be ready for the real-world opportunities waiting for you after graduation.

- Excavation techniques
- Remote sensing
- Laboratory cataloging
- Collections management
- Pottery analysis
- Mapping
- Archaeobotanical processes
- 3-D Modeling
- Photogrammetry
- Archaeological ethics
- And more!

College Field School

May 20–June 23

Certified Career Training

Crow Canyon's College Field School is certified by the **Register of Professional Archaeologists**. It offers you an amazing opportunity to work alongside professionals and native scholars while adding credits to advance your career in archaeology.

Not only will you be working with professional archaeologists, you'll also be part of the dig team at the Haynie site, an ancestral Pueblo village with two Pueblo II (A.D. 950–1150) great houses.

Apply Today! crowcanyon.org • 800.422.8975, ext. 451 • Cortez, Colorado

Field School Fee, \$4,100: Includes instruction, housing, and most meals.

Application Deadline: March 2.

Late applicants may be accepted if program is not full.

Tuition for six credit hours, \$330: Undergraduate and graduate students may enroll in Anthropology 279 and 589 through Adams State University.
