INTRODUCTION

Between the 14th and 17th centuries CE, Bulgaria experienced troubling, violent times. The Byzantine Empire, the Second Bulgarian Empire and the Serbian Empire collapsed in the 15th c. and the Ottoman Empire conquered Southeastern Europe. The many wars, and the accompanying social and political upheavals, had a direct impact on the expression of Christian Orthodox practice and iconography. During this Late Medieval period, Christian Orthodox structures were built to attract the least attention, with humble architecture on the outside, but with exquisite frescos inside.

In the past 100 years, many of these structures were abandoned and fell into misuse. Some have been looted – first during the Ottoman Empire by either Muslim Turks or superstitious local Christians, and then by modern looters and vandals. Other structures are collapsing due to the
impact of weather and lack of maintenance. These important cultural heritage monuments are disappearing. This program is part of a long term project to document these structures and preserve their heritage for future generations – in photographic and digital format at a minimum and raise public awareness of state recognition and legal preservation when possible.

The Fresco-Hunting Photo Research Expedition systematically documents abandoned medieval churches and chapels – and their frescos – in western Bulgaria. Students will take part in this process and will gain context and understanding of Christian Orthodox iconography through visitation to several churches, monasteries, museums, and archaeological sites in western Bulgaria and Serbia. Our goal is to expand and update the existing database from 15 churches and chapels. Thus far, the Fresco-Hunting Photo Research Expedition has been successful in raising public awareness and three sites have now been formally designated as official state monuments and protected under the law – Balsha, Kalotina, and Zimevitsa. In 2017, the Balkan Heritage Foundation issued the first e-book dedicated to one of the churches – the 17th century church St. Theodore Tyro in Zimevitsa. We are now working, and students in this program will take part in collecting data for the publication of two more e-books for the churches of Balsha and Golesh.

**IMPORTANT DISCLAIMER**

The Center for Field Sciences was established to support field training in a range of sciences at sites across the world. Traveling and conducting field work involves risk. Students interested in participating in any CFS program must weigh the potential risk against the value of education provided for the program sites of their choosing.

Risk is inherent in everything we do and the CFS takes risk seriously. A committee of leading scholars review each field school location prior to approval. Once a program is accepted, the CFS continually monitors conditions at the program site, its academic quality and ability to conduct as safe of an experience as possible.

The CFS does not provide trip or travel cancellation insurance. Students are encouraged to explore such insurance policies on their own. Post Covid 19, most basic policies do not cover trip cancelation due to pandemics. If you wish to purchase an insurance policy that covers such contingencies, explore Cancel for Any Reason (CFAR) plans. Insuremytrip.com, Squaremouth.com or Travelguard.com are possible websites where students may explore different insurance policies.

You should be aware that conditions in the field are different than those you experience in your home, dorms, or college town. You will be exposed to the elements, live in rustic accommodation, and expect to engage in physical activity daily.

We do our best to follow the schedule and activities as outlined in this syllabus. Yet local permitting agencies, political, environmental, personal, or weather conditions may force changes. This syllabus, therefore, is only a general commitment. Students should allow flexibility and adaptability as research work is frequently subject to change.

All students must consult medical professionals to ensure they are fit to participate in this program. If you have any medical concerns, please consult your doctor. For all other concerns, please consult with the program director – as appropriate.

**COURSE OBJECTIVES**

By the end of the program the participants will know:
How to practice basic survey and documentation techniques based on postmedieval ecclesiastical monuments and their frescoes: Visual inspection, measurement using laser/tape and dumpy level, scale-drawing, sketching, digital photography, rendering and interpretation of data.

Creating textual, graphic and photographic records

(Preliminary) interpretation and identification of architectural styles and construction techniques, as well as fresco iconography, techniques and styles

LEARNT SKILLS

We are aware that many students may not seek academic careers but will pursue employment in the private sector. To that end, we are following the Twin Cairns Skills Log Matrix™ ([https://twincairns.com/skills-log-matrix/](https://twincairns.com/skills-log-matrix/)) and will provide training for the following skills:

<table>
<thead>
<tr>
<th>Skill</th>
<th>Skill Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Field-Data Recording</td>
<td>Ability to use printed or digital sheets to document &amp; record field data</td>
</tr>
<tr>
<td>Geodesy</td>
<td>Ability to understand and create products taking into effect earth's figure, orientation and space and how it changes over time</td>
</tr>
<tr>
<td>Photography</td>
<td>Ability to take clear images of various feature, artifact &amp; soil colors at various light and field depth conditions</td>
</tr>
<tr>
<td>Image Editing software</td>
<td>Ability to display, create &amp; edit images/graphics in graphic software, such as Adobe Illustrator, Photoshop, etc.</td>
</tr>
<tr>
<td>Public Interpretation</td>
<td>Ability to understand site history and provide clear and coherent interpretation for the public</td>
</tr>
<tr>
<td>Report Writing</td>
<td>Ability to write technical reports in coherent language that follow both federal and state regulations and law</td>
</tr>
<tr>
<td>Map/Plan Making, Manual</td>
<td>Ability to use a dumpy level &amp; measuring tape to produce maps and plans of a site</td>
</tr>
</tbody>
</table>

SKILLS MATRIX LEVELS

The school instructors will evaluate the level each student achieved on the Twin Cairns Skills Log Matrix™ skills list provided above. Each skill will be graded on one of the following three levels:

**Basic**: Can perform the skill/task with some supervision.

**Competent**: Can perform the skill/task without any supervision.

**Advanced**: Can perform the skill/task and teach others how to do it.

COURSE SCHEDULE

<table>
<thead>
<tr>
<th>Date</th>
<th>Activity</th>
</tr>
</thead>
<tbody>
<tr>
<td>May 25</td>
<td>Arrival and check-in by 7:00pm</td>
</tr>
<tr>
<td></td>
<td>8:00pm: Welcome dinner</td>
</tr>
<tr>
<td>May 26</td>
<td><strong>Morning</strong>: Orientation</td>
</tr>
<tr>
<td></td>
<td><strong>Afternoon</strong>: Lectures</td>
</tr>
<tr>
<td>May 27</td>
<td><strong>Morning</strong>: Lectures</td>
</tr>
<tr>
<td></td>
<td><strong>Afternoon</strong>: Sofia Downtown Walking Tour with visits to the City Cathedral</td>
</tr>
<tr>
<td>May 28</td>
<td><strong>Morning</strong>: Lectures</td>
</tr>
<tr>
<td></td>
<td><strong>Afternoon</strong>: Workshops</td>
</tr>
<tr>
<td>May 29-31</td>
<td><strong>Working days</strong>: Fieldwork at the sites in Bulgaria (approx. 7-8 hours per day)</td>
</tr>
<tr>
<td>June 1</td>
<td><strong>Guided visit</strong>: Rila Monastery (UNESCO World Heritage Site); This is the largest and oldest surviving Orthodox monastery in Bulgaria, established in the 10th century by St. Ivan Rilski (St. John of Rila).</td>
</tr>
<tr>
<td>June 2-5</td>
<td><strong>Working days</strong>: Fieldwork at the sites in Bulgaria and Serbia (approx. 7-8 hours per day).</td>
</tr>
</tbody>
</table>
June 6-7
| Morning: Data processing, archiving and report writing. |
| Afternoon: Presentation of preliminary project results. |
June 8
| Departure. Check-out by 11:30am |

*Course structure may be subject to change upon directors’ discretion.*

**TYPICAL WORKDAY**

Students will follow this daily schedule during the three weeks of lab work.

8:00-9:00 am  Breakfast
9:00 am-12 pm Site visits & data collection and/or processing
1:00-2:00 pm  Lunch
2:00-5:00 pm  Site visits & data collection and/or processing
7:30- 8:30 pm Dinner

**ACADEMIC GRADING MATRIX**

Students are required to participate in all components of the field school. Grades are determined as follows:

❖ **70% - Field work**: Effectively use of equipment to produce actionable photographic and spatial data.
❖ **20% - Workshops**: Ability to organize data into accurate digital databases suitable for analysis and interpretation.
❖ **10% - Attendance, Demonstrated diligence and Active participation**

**ATTENDANCE POLICY**

The required minimum attendance for the successful completion of the field school is 95% of the course hours. Any significant delay or early departure from an activity will be calculated as an absence from the activity.

An acceptable number of absences for medical or other personal reasons will not be considered if the student catches up on the field school study plan through additional readings, homework, or tutorials with program staff members.

**PREREQUISITES**

There are no prerequisites for participation in this field school. Note that this program requires long walks and long periods of documentation where students stand on their feet. You must be physically fit to move around in the heat and humidity throughout the day. Students will be taught how to use a variety of photography procedures and equipment -- work is slow and may be tedious. It requires patience and focus.

**PROGRAM ETIQUETTE**

Bulgaria, one of Europe’s oldest countries, boasts a diverse and extensive history spanning many centuries, influenced by various dynamic civilizations. From the ancient Thracians to the Roman Empire and the Byzantine era, Bulgaria’s past reflects its resilience and cultural richness. Its strategic location as a crossroads between East and West has shaped its identity, evident in its architecture, cuisine, and traditions. Today, Bulgaria stands as a vibrant nation blending its storied past with modern aspirations, welcoming visitors to explore its timeless landscapes and captivating history. Bulgarians take pride in their heritage and achievements, and we kindly ask for your respect towards their customs, traditions and culture.
EQUIPMENT LIST

- Work shoes and clothes that will suit outdoor work -- keeping in mind the diverse weather conditions (from rainy and cool, to sunny and warm.) Don’t forget both your raincoats and sunscreen. A pair of comfortable hiking shoes are required. Long pants are recommended because of the potentially irritating plants, insects, and reptiles. You will also be asked to help carry some of the project equipment.
- Medication -- Please bring only the prescription medicines needed. It is not necessary to bring non-prescription medicine since you can easily buy all basic non-prescription drugs in Bulgaria.
- Equipment and tools: The participants are encouraged to bring a laptop having at least 20 GB free disk space, a mouse and a USB flash drive. Operating system recommended: Windows 8 or newer. Participants will not need to bring drawing or measuring supplies, nor any other tools. These will be provided by the field school.
- For participants who want to bring their own cameras, we recommend a high-resolution digital photo camera, with a higher ISO and optical stabilization. Bear in mind that working conditions are frequently challenging: low to no light, humid and moldy environments. The Balkan Heritage Field School has flood lights, but these are only usable if there is electricity. Don’t forget to bring your camera USB connecting cable (esp. in case you cannot bring your laptop).
- Wide brim hat.
- Small backpack (for your water bottle, snacks, camera, etc.)
- A converter to EU-type electrical sockets if needed.
- A good attitude for work, fun, study, and discoveries!

VISA REQUIREMENTS

There are no special visa requirements for U.S. citizens traveling to Bulgaria and Serbia, if they do not stay longer than 3 months. Passport’s expiration date should exceed the stay by at least 3 months.

Citizens of other countries are asked to check the embassy website page at their home country for specific visa requirements.

MEALS & ACCOMMODATIONS

We will stay at the Hotel Zheravna in Bankya in Sofia metropolitan area. Rooms are with two to three beds, bathrooms with showers, WC, TV, and free Wi-Fi.

Three meals per day are covered by the program. Meals usually take place in the hotel restaurant, except the brown-bag lunches, when we are visiting sites across western Bulgaria and Serbia. This program can accommodate vegetarian diets.

TRAVEL & MEETING POINT

We suggest you hold purchasing your airline ticket until six (6) weeks prior to departure date. Natural disasters, political changes, weather conditions and a range of other factors may require the cancelation of a program. The CFS typically takes a close look at local conditions 6-7 weeks prior to program beginning and makes a Go/No Go decision by then. Such a time frame still allows for the purchase of deeply discounted airline tickets while protecting students from potential loss of airline ticket costs if CFS is forced to cancel a program.

Students should plan to fly to the Sofia International Airport (SOF). The meeting point is at the Hotel Zheravna, Bankya. Transfer from Sofia Airport to the hotel may be arranged – please contact program director to schedule and for costs.
PRACTICAL INFORMATION

International dialing code: The Bulgaria international phone code is +359.

Money/Banks/Credit Cards: Bulgaria’s currency is the Lev.

ATM Availability: there are several ATMs in the vicinity of the hotel

Local Language: The native language is Bulgarian. Bulgaria sees many international tourists and many Bulgarians, especially young folks, speak at least some English.

Measurement units: degree Celsius (ºC), meter (m.), gram (gr.), liter (l)

ACADEMIC CREDITS & TRANSCRIPT

Attending students will be awarded 2 semester credit units (equivalent to 3 quarter credit units). Students will receive a letter grade for attending this field school based on the assessment matrix (above). This program provides a minimum of 80 direct instructional hours. Students are encouraged to discuss the transferability of credit units with faculty and the registrar at their home institutions prior to attending this program.

Students will be able to access their transcript through our School of Record – Culver-Stockton College. C-SC has authorized the National Student Clearinghouse to provide enrollment and degree verification (at https://tsorder.studentclearinghouse.org/school/select). Upon completion of a program, students will get an email from C-SC with a student ID that may be used to retrieve transcripts. The first set of transcripts will be provided at no cost, additional transcripts may require payment. If you have questions about ordering a transcript, contact the C-SC office of the registrar at registrar@culver.edu.

REQUIRED READINGS

Huntington, John C. Photography for Art Historical Field Research and Documentation

RECOMMENDED READINGS
